November 2012

## President's Message

Things are starting to get pretty busy at this time of the year. Presidential Elections, Club Elections, Thanksgiving, Christmas, plans for our 2013 AARA Hamfest need to get under way, no rest in sight.

Our November General Meeting will consist of the Club President (Herman KN5GRK) picking a nominating committee and chairman for officers for 2013 - 2014. The committee will consist of two board members and two voting members in good standing. If you would like to volunteer as being a part of this committee and save the President having to appoint someone, contact President Herman Campbell KN5GRK. The President will delegate a Chairperson (Nick Pugh K5QXJ has volunteered to be Chairperson). I would advise all members to read the bylaws about election and the duties of officers. That info can be found at:

<http://www.w5ddl.org/bylaws/bylaws2007.htm>

Some of our present officers have made it known to me that they would not run for office for the upcoming year. They are Sandy LeBlanc KE5KJF, Club Secretary and myself Herman Campbell KN5GRK. There may be others later. So now is a good time to make it known that you like to run and be a major part of this organization.

Our AARA Hamfest 2013 (March 8<sup>th</sup> & 9<sup>th</sup>) is already getting some inquiries, so I think it is time to get the ball rolling. There is a lot of work involved in putting on this event, hopefully some of the guys and gals involved in or 2012 Hamfest will continue to help or at least Elmer the newcomers. The website needs to be updated, schedules for forums & events planned, admission & RV fees and if we plan to do the Crawfish Boil again.

Jess KF5LUL will be heading up the **Cajun Cup 10K Run** taking place on Saturday November 10, 2012, he will probably update us at the November General Meeting and maybe have "T" shirts for the volunteers.

I would also like to mention that we have a "**Kid's Net**" on Thursday nights (except the 1<sup>st</sup> Thursday of each month - club meeting night) at 7:00 PM on the 146.820 (pl. 103.5) repeater in Lafayette EchoLink Node 370324. Abbi KF5BEW & Kendra KF5FYS are net control operators and do a very fine job but are lacking check-ins. How about checking in and supporting their cause and maybe sharing some of your experiences you might be having as a newcomer to ham radio. *BTW, this net is not limited to just kids, they will accept any age group.*

I am making it officially known that as January 1st, 2013, I will no longer call the Gulf Coast Sideband Net on Monday night at 0030 UTS on 3925 KHz.

Herman Campbell KN5GRK  
AARA President

**The AARA General Meeting will take place on Thursday, November 1<sup>st</sup>, 2012 at 7:00 PM at the Red Cross Building, 101 N. Pat St., Scott, LA.  
VE Testing will be at 6:00 PM**

## Boy Scout Winter Camp Radio Merit Badge Course

Plans for Amateur Radio Operator support for the Boy Scout's Winter Camp at Mountain Bayou Lake Boy Scout Camp for the period November 16 thru November 20, 2012 are as follows:

Ham Operators from both the Amateur Radio Club of Central Louisiana up at Alexandria and from the Acadiana Amateur Radio Association of Lafayette will be supporting this year's Winter Camp program. Jim Bookter (N5NVP), Jim Molan (KD5IGG) & Archie Hill (W5AG) will be on hand to lead the scouts in their Radio Merit Badge course of study. Glen Thibodeaux (KF5FNP) and probably his brother Wayne (AF5EJ) will be pulling the trailer mounted antenna and setting it up on site to support the Amateur Radio Communications necessary to support the event. I will be carrying and setting up my new ICOM-7000 with a new antenna tuner and will be operating both CW & Single Side Band. I feel that Glen will be putting some of his WW II Vintage Military Radios on display for the Scouts to see. Additional operators are welcome to assist with radio communications and to observe. Ms Rayburn advises that 350 to 400 Scouts will be at the camp but that only about 10 to 20 will be participating in the Radio Merit Badge course.

Just for everyone's information Winter Camp 2012 will begin with the Boy Scouts Camp registration on Friday Nov 16, 2012 with classes beginning on Saturday Nov 17, 2012 and running on thru Tuesday Nov 20, 2012. There will be a small cabin with space for two radio operators who may need to remain at the camp over night. Ms Rayburn will need to know how many people plan to use these cottages so please reply and let me know if you will need a cottage and I will pass that info back to Ms Rayburn. I also need to know if you plan to eat at the camp dining facility so that I may also pass that info to Ms Rayburn.

Respectfully,  
Jim Bookter (N5NVP)

## Postage Rates to Increase in January

The US Postal Service has announced that as of January 27, 2013, the cost to mail First Class letters, postcards and packages within the US will go up. The cost to mail a first class letter will be 46 cents, while the cost to mail a postcard will be 33 cents, an increase of 1 cent for each. This is the third increase for postcard postage in less than two years; in April 2011, the USPS boosted the postcard stamp price from 28 cents to 29 cents, and from 29 cents to 32 cents in January 2012. The USPS will also introduce a First Class Mail Global Forever Stamp in January. This new stamp will allow customers to mail 1-ounce letters anywhere in the world for one set price of \$1.10. The cost to mail flat-rate Priority Mail packages and letters will also increase. Click here for more information on all the 2013 postal increases.

This year we have 100 boats registered with in excess of 250 registered paddlers and Courreur Des Bois."***

### Acadiana Area Simplex Net

On October 15<sup>th</sup>, members of the AARA coordinated a 2 Meter Simplex Net. This Net was held in an effort to assist local amateur radio operators in evaluating their equipment performance in Simplex mode, in the case that emergency conditions would prevent the use of local VHF repeaters.

The Simplex Net was called from the Lafayette Parish EOC Amateur Radio Station, KA5EOC. The EOC station operated from downtown Lafayette at a full 45W of power, for maximum coverage of the Acadiana area.

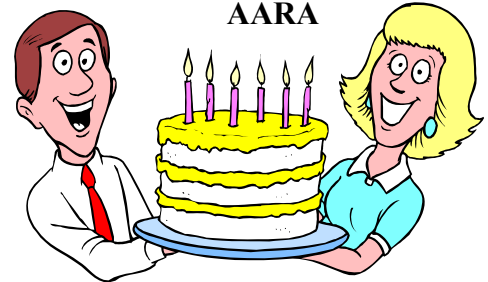

Check-ins were taken in alphabetical order each stating call sign, name and location. Each check-in was given a signal report and then asked to state power level, antenna type and antenna height. Each check-in was logged either through direct contact or with the assistance of relays, with four rounds logged.

Participant adjustments included changes in power level, multiple types of antennas from same station, and multiple types of radios from same station. Power levels reported were from 60W to 1/2 W. Once again, antenna height and directional antennas had the best results with low power.

A total of 18 check-ins participated in the Simplex Net, most from the Lafayette area, but stations from New Iberia and Washington, La successfully contacted the EOC directly. Thanks to all that participated, and if you missed this time around, get your gear ready for the next one in early Spring 2013.
